MOHAMED-ALI SALEH

BUILDER

OBJECTIVE

To Start Working part-time with a respected traffic control company and be able to join a team I can stay with long-term and hopefully be able to follow through to a supervisor role.

SKILLS

Team Leader
Problem Solving
Time management
Communication

EXPERIENCE

As a Site manager who's been working on site and overlooking jobs for a living, I believe I have the required skills to be able to manage and work in a team successfully. My current job requires me to manage, overlook and complete building projects that require my full attention as a leader of the team. I Believe my role is very critical so that the company can undertake and complete tasks successfully, safely and by the required time. I have experience in managing traffic controllers as my work requires me to work with traffic control companies to make sure the roads and passengers are safe and not affected by our work. Therefore, I believe me joining a traffic control company, I have a lot to offer and be a great addition to the company.

EDUCATION

FINISHED YEAR 12
Currently finishing my building and construction course

VOLUNTEER EXPERIENCE OR LEADERSHIP

I was a school captain
I'm part of local charities and community centers.
I undertake tasks for fellow friends and companies in building industry to help them successfully complete their projects
